

The Board of Selectmen heard from a citizen at their August 21, 2017 meeting who requested that all Town Boards, Commissions and Committees Video Tape their meetings to be uploaded to the Town Website. The Board does not have the authority to set this policy but agreed to share this courtesy request in the interest of Transparency. If anyone from these Boards or Committees/Commissions would like to learn how to run the video equipment please contact the Town Administrator and she will put you in touch with this citizen who can train you on how to properly use this equipment. Thank you 😊
